## METHODOLOGY

---

You follow a **‘Live webinar’** digitally in a group. It is ‘learning-apart-together’. At an agreed time, the teacher and participants log in to a video conference tool, each from his or her own location and with his or her own computer. Via this tool’s camera, microphone and chat function, there is an opportunity for interaction and feedback, both from the participants to the teacher and vice versa. The teaching material consists as a basis of a presentation via the MyFA learning platform, supplemented with various other items (such as digital syllabus, presentation, audiovisual fragments, etc.).
